

SUMMARY

Computer Science undergraduate with hands-on experience in machine learning and backend development. Skilled in building real-time, data-driven applications using Python, Flask, and XGBoost. Strong problemsolving abilities with a focus on scalable and efficient system design.

TECHNICAL SKILLS

Languages: Python (Primary), SQL, Java

Tools: Git, GitHub, VS Code, Cursor.

Databases: Relational Database (MySQL).

Machine Learning Libraries: Numpy, Pandas, Matplotlib, Scikit Learn

Relevant Coursework: Data Structures & Algorithms, Operating Systems, Object Oriented Programming, Problem Solving, Database Management System, Software Engineering, System Design (Basics), Generative AI.

PROJECTS

• Smart Fraud Detection System using XGBoost (Python, XGBoost, Flask, scikit-learn)

- Developed a real-time fraud detection system for credit card and UPI transactions using XGBoost and ensemble learning techniques.
- Built a Flask-based web application to classify transactions as fraudulent or legitimate using trained ML models
- Implemented feature engineering and model evaluation to improve prediction accuracy.

• AI-Powered Resume and Job Fit Analyzer (Python, OpenAI API, Sentence-Transformers, Flask)

- Built a RAG-powered resume analyzer using sentence-transformers and FAISS vector store to semantically match resumes against job descriptions, achieving 87% match accuracy across 500+ resume-JD pairs
- Developed an LLM-driven rewrite pipeline using the OpenAI API to generate role-specific resume improvement suggestions, reducing manual tailoring effort by 70%
- Implemented a hybrid scoring engine combining TF-IDF, cosine similarity, and XGBoost to produce a quantified fit score (0-100) with skill gap breakdown

KEY ACHIEVEMENTS

- Built and deployed machine learning models capable of real-time prediction and classification
- Gained strong proficiency in SQL, relational database design, and optimized data retrieval techniques.

EDUCATION

- **Bachelor of Technology in Computer Science and Engineering** 2022-2026
VIT-AP University CGPA: 7.54
- **Narayana Junior College** 2020-2022
Intermediate (MPC) Percentage: 89.6%

CERTIFICATIONS AND POSITION OF RESPONSIBILITY

• Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate – Oracle, 2025

- Earned Oracle Cloud Infrastructure 2025 AI Foundations Associate certification with understanding of Machine Learning, Deep Learning, neural networks, and AI fundamentals.

• Oracle Cloud Infrastructure 2025 Certified Generative AI Professional

- Completed Oracle Cloud Infrastructure 2025 Generative AI Professional certification with understanding of Large Language Models (LLMs), prompt engineering, and transformer architecture.

• Event Operations and Team Lead – Drone Event (Vijayawada Utsav-2025)

- Led and coordinated a 20-member team for drone event operations during Vijayawada Utsav organized by Shreyas Media.
- Collaborated with organizers and technical teams to support successful execution of drone showcase activities.
